

## LLOYD GEORGE MAY LEAD NEW COMBINED PARTY

LONDON, Sept. 17.—Informal discussions are frequent as to the possibility of a working agreement between the younger members of the Unionist party, headed by Lord Robert Cecil, and the parliamentary Labor party, according to the political correspondent of the Central News. He adds that Premier Lloyd George has an ambition to lead such a combination and now that the premier has returned to London, "the whole situation is full of striking possibilities."

## SCHOOL FOR SCOUTS

To perfect scoutmasters that they might impart knowledge to the scouts under their care, a course of study is being arranged by Scout Executive G. A. Goates for the leaders of various troops in Ogden.

The course will be made up of three classes of work, each of which will comprise eight phases of the subject. Among other subjects which the course will embrace are camp craft, organization, aim of organization and camp practice. While faculty members for the course have not yet been chosen and the place for holding the session has not been decided upon, Mr. Goates said that the lessons would probably be in force in the near future. All scoutmasters as well as other youths over 18 years of age may attend if they so desire.

## George Odell Is Given Praise by the Government

George T. Odell, state director of war saving stamps, is in receipt of two letters which show the appreciation the government has in regard to his work with the stamps. W. G. McAdoo wrote Mr. Odell expressing every appreciation and praising every effort on the part of his assistants. The other letter from Carter Glass, secretary of the treasury, follows:

"My Dear Mr. Odell:—Now that we are perfecting our plans for continuing the thrift, savings and investment movement as a permanent activity of our government, we may review the work of the last two years with a large measure of gratification. We have not only enlisted the people of the country in the support of their government and the carrying on of a righteous war, but by continuing the sale of these government securities since the war we have given to our people a new and wider opportunity to obtain a direct financial interest in the government in times of peace, and thus to feel to a greater degree that it is their government and that they are interested in and responsible for its activities."

"I desire to express to you individually my very deep appreciation for your continued services as director of war savings for the state of Utah, your loyal service, at the sacrifice of your own personal interest, has done much toward insuring the future prosperity of your state and of your country. The fact that you have been able to be of such service to your country, both during the period of the war and the readjustment following the signing of the armistice, must be a source of pride and gratification to you, and it is certainly a source of great satisfaction and pleasure to me to feel that I have had the assistance and loyal co-operation of men of your character and standing throughout the country."

(Signed) "CARTER GLASS."

## WORLD'S MARKETS

NEW YORK, Sept. 17.—Overnight developments pointing to fresh uncertainties in the steel labor situation and official denial of any plan to pay back dividends on Mercantile Marine preferred provoked moderate selling of industrials and shipping at the opening of today's stock market.

The market became extremely irregular after the first rally, steel losing their gains with equipments. Another recovery was followed by further selling in which several leaders fell under previous quotations. At noon rails and motors became the features. Texas company gained 6 points, and General Motors 6½. Prices otherwise declined downward. The market for call money was easy at 6 per cent, but foreign exchange showed greater uneasiness with large discounts for francs, marks and guilders. Sterling declined to with a small fraction of a minimum quotation.

## CHICAGO GRAIN

CHICAGO, Sept. 17.—Sharp upturns in the value of corn resulted largely today from announcement of a projected movement on the part of farmers' organizations to have grain and livestock held back for higher prices. The fact also that the hog market this morning showed strength tended noticeably to stimulate corn buying. On the other hand, foreign exchange weakness and other bearish factors that have been more or less responsible for the recent decline of grain values received but little attention. Opening prices, which ranged from 3½ to 3¾ higher, with September \$1.17 to 1.19, and December \$1.24 to 1.25, were followed by numerous fluctuations, but no important setback from initial gains.

Oats ascended with corn. After opening ¾ to ¾ higher, including December at 69½ to 70c, the market
